Merchants' Exchange Building.

Our article of Monday upon the subject of increased facilities for the Y. M. C. B. Library Association, and a Merchants' Exchange Building, has stirred up the friends of different sites, each agreeing as to the necessity of action in these matters. A citizen proposes for an "Exchange" Smith & Nixon's Hall and the building belonging thereto. His communication will be found on first page.

The lot on the south side of Fourth-street, on which is St. Paul's Church, fronts 66 feet, and extends back 100 feet to an alley. The building, if the lot be not sold, is to be improved by taking down the front and erecting the church flush with the street, and the sides to the full width of the lot, and a steeple to be placed on one corner. This site is convenient for merchants, and needs but a dome to complete it for immediate use. We suppose that it can be purchased for \$50,000, although one thousand dollars per foot has been asked for it.

Parties have named to us other localities as especially suitable—Wood's Theater building and grounds, ninety-two feet on Sixth-street and eighty-seven feet on Vine-street. Also, the Hay-stable corner opposite, ninety-one feet on Vine-street and sixty feet on Sixth-street. It is claimed for these sites, that the rooms on the first floor would rent at such rates as to furnish Exchange Rooms without cost.

Impudent Persons—Annoyance at Street Corners.

We have a communication from a number of ladies in the East End, urging a complaint against loafers of various grades, age and color, about the Omnibus Stand at Lower Market-space. Ladies are annoyed by rudeness and impertinence; and, as a recourse, and of course, rely on the PENNY PRESS to have the nuisance abated. We call the attention of Capt. SMALL and the police force to the importance of securing the market-space free from loungers and obstructors of the Omnibus Stand, to which the wives and daughters of so many laboring men resort unattended.

A Retiring Judge.

Judge JOSEPH R. SWAN, of the Supreme Court of Ohio, now in this city, returns to-day to Columbus, we understand, to resign his office. His regular term of service expires in February next, but he has determined to lay off the ermine, which, all must acknowledge, has, with him, been spotless. Appropriately of him may the commendation be uttered—"Well done, good and faithful servant."

Little Ella.

The New York court has associated JAMES S. TEATES with Mrs. BURNS, the guardian of the precocious little girl we have hitherto spoken of, now to be known as ELLA BELL WHITMAN. The father, FRANCIS S. WHITMAN, of this city, is to have access to the child at will; and the lady having Ella in custody is restrained from exhibiting her publicly without the consent of the court.

Licking County Agricultural Society.

We are indebted to Wm. M. CUNNINGHAM, Treasurer of the Licking County Agricultural Society, for a special invitation to attend their fair, which opens at Newark to-day, to continue three days.

A rumor was on the wing last evening to the effect that Doctor Gwin had challenged Mr. Broderick, and that the preliminaries were being arranged for a fight to-day. At a late hour we were unable to trace the report to any authentic source.—San Francisco, Times, 9th.

LATEST BY TELEGRAPH

REPORTED FOR THE PENNY PRESS.

From Washington.

WASHINGTON, October 4. A month ago information was received in this city of filibustering movements against Nicaragua. Although the statement was not fully credited, it was deemed of sufficient importance to justify the issuance of instructions to the proper Federal officers to exercise more than ordinary vigilance, the President himself superintending these precautionary measures. The recent advertisement in the New Orleans papers of a steamship to start from Mobile for Chiriqui on the 1st of October, added to other accumulated suspicious circumstances attending the alleged contemplated invasion of Nicaragua, but on inquiry of the collector at Mobile, nothing has been heard to confirm the truth of the report so far as that port is concerned. Within the present week, reliable information has been received here, as stated in the general newspaper dispatch yesterday, that a large number of strangers were in New Orleans, including many prominent men known to have been heretofore connected with the filibustering enterprise, and this, together with other circumstances, excited a suspicion in the mind of Collector Hatch that they meditated an unlawful expedition.

Last night one hundred or one hundred and fifty of them left that city, the presumption being that they had gone to the Balise to await a vessel. A clearance had been asked for the steamer Philadelphia, supposedly for Chiriqui, but which Collector Hatch refused for reasons above stated. The agent of the steamer was persistent and again applied for a clearance, but with no better success than at first.

Of those our Government is informed, and probably they are the only one from authentic sources in its possession. It is believed this subject was to-day a matter of Cabinet consideration. Orders have been dispatched by telegraph to the commanding officers at Balise Rouge for concentrating and holding the Federal military in reserve, to be used, if necessary, as a posse comitatus for the enforcement of the laws. It is believed here and the fact which have just transpired, seem to warrant the conclusion, that the filibusters so arranged their plans as to avail themselves of the advantages afforded by the reopening of the Nicaragua Transit Route for the transportation of their designs. The Administration is determined by all the means in its power, including the employment of the land and naval forces, to compel respect to the neutrality laws.

The Cricket Match.

New York, October 4.

The play on the St. George's Cricket Grounds at Hoboken, was resumed to-day at quarter before twelve o'clock, Parr and Hayward at the bats to the bowling of Gibbs and Hallis. The following is the score, including the runs made yesterday:

All England's eleven, first innings—Hayward, b. Hallis, 33; Carpenter, c. Senior, b. Hallis, 26; Wisden, (not out), 5; Parr, b. Gibbs, 7; Coffin, b. Gibbs, 5; Lockyer, c. Lang, b. Hallis, 12; Diver, c. Hallis, b. Gibbs, 1; H. Stephenson, b. Hutt, 10; Caesar, b. Hallis, 6; Grundy, b. Hallis, 20; Jackson, (not out), 8; byes 10; leg-byes 1; wides 12; no balls 2, 23. Total 156.

The twenty-two of the United States, second innings—Long, c. Carpenter, b. Wisden, 8; Waller, c. Lockyer, b. Coffin, 0; Sharp, c. b. Coffin, 5; Hammond, b. Coffin, 0; Gibbs, c. Lockyer, b. Coffin, 0; Seast, c. Carpenter, b. Coffin, 1; Wisden, b. Coffin, 0; Wilby, b. Coffin, 0; Senior, c. Carpenter, b. Coffin, 3; Higgin, b. Coffin, 0; Newhall, b. Coffin, 0; Morgan, c. Lockyer, b. Coffin, 0; Barclay, (not out), 1; Hallis, b. Wisden, 5; S. Wright, (not out), 3; Head, (not out), 0; byes 1; leg-byes 3; 4. Total for sixteen, 36.

The play was stopped at five o'clock, when the twenty-two of the United States were eighty-two behind with only seven wickets to go down. There were ten thousand spectators on the ground, including a large number of ladies.

Arrival of the Overland Mail.

Er. Lotus, October 4. The overland mail, with dates to the 12th ult., reached Jefferson City this afternoon. Sufficient returns had been received to insure the election of the entire Leocompton Democratic ticket, two members of Congress, Superior Judge, State printer and a very large majority in both branches of the Legislature.

The Peoples' Reform Ticket in San Francisco has been elected by a majority of from one to three thousand. Just previous to the departure of the mail of the 9th ult., Judge Terry challenged Senator Broderick, which the latter seems to have accepted, as a meeting between the parties on that morning was prevented by the police.

Business at San Francisco continued dull, with a light country demand. The quotations were nominally unchanged, but for the few goods selling buyers obtained better terms.

The St. Louis Fair.

St. Louis, October 4. The results of the fourth annual fair which closed yesterday, are eminently satisfactory. The display of animals was never perhaps equalled in this or any other country. An array of machines, agricultural implements, textile fabrics and specimens of handicraft generally was unusually comprehensive and varied. The display of fruits and flowers was creditable to the horticultural progress of the West. The attendance on the grounds during the entire seven days was unprecedented. The receipts amounted to nearly \$30,000. When it is remembered that no entrance fees were charged for any article exhibited, that this sum proceeds from admission tickets alone, the success of the exhibition becomes apparent. It is already stated that the directors contemplate the removal of the present amphitheater, and the erection of one of double capacity.

Later from Venezuela.

New York, October 4. The steamship James Adger, from Charleston, was boarded by a boat from the bark White Wing, from Laguna, and received on board a passenger with Venezuelan papers. The French Charge d'Affaires had been sent out of the country on two days' notice. His opposition to the existing government and participation in the late bloody revolution, are the charges alleged for driving him away. Gen. Ruben, with the government forces, had taken the town of Marquetin, near Laguna, but the rebel, Gen. Agudelo, escaped. Barcelona was every where victorious. The revolutionists, or rather robbers, had committed the most outrageous excesses, murdering and plundering to a fearful extent. From present accounts, however, their triumph is at an end.

The Rescue of La Mountain.

OTTAWA, C. W., October 4. Professor La Mountain and Mr. Haddock came into Ottawa yesterday, having landed one hundred and fifty miles north of this place in the Great Canada Wilderness. They were brought out by Indian guides in bark canoes. They traveled in their balloon three hundred miles and were up in the air only from four to five hours. For over four days they had been in the wilderness without food and with no means of striking a fire. They were rescued by Mr. Cameron, who was hunting timber with Indian guides.

Michigan State Fair.

Detroit, October 4. The Fair of the Michigan State Agricultural Society opened to-day, and will continue four days. The first day will be devoted to entries, the second to examination of cattle; third, examination of horses, and the fourth, awards and exhibition of premium articles. Gov. Banks, of Massachusetts, will arrive this evening, and on Thursday will deliver the annual address before the Society. Horace Greeley is also expected to be present, and will deliver an address. The weather is fine, and the entries and attendance is large.

Kansas Election.

LEAVENWORTH, October 4. An election was held to-day on the question of acceptance or rejection of the Wyandotte constitution, which passed off quietly. The adoption of the constitution is generally conceded. Leavenworth City gives 231 majority for the constitution. Atchison City and township gives one majority. Other precincts to hear from will increase the majority.

More Filibusters.

New Orleans, October 4. Collector Hatch refused a clearance to the steamer Philadelphia for Aspinwall, to-day, because it is alleged that the steamer is engaged to take Walker and 200 or 300 men from Texas, Alabama and elsewhere, now encamped below the city, ready to start for Nicaragua, ostensibly bound for the Chiriqui gold diggings, intending to leave on the 5th inst.

From the Coast of Africa.

Boston, October 4. The bark Hazard, which arrived at this port to-day from the coast of Africa, reports having been fired into on the coast by the British war steamer Pluto. The U. S. sloop of war Vincennes was at Loando on 14th August. All well.

Naval.

New York, October 4. The U. S. brig Perry was at Montevideo on the 10th ult. All well.

PENSACOLA, FLA., October 4.

There are some hopes of saving the United States steamer Fulton. The first case of fever was reported here to-day.

River News.

Pittsburg, October 4. River four feet three inches by the pier-mark and falling. Weather clear and pleasant.

LOUISVILLE, October 4. P. M. River falling slowly, with four feet eight inches in the canal, and two feet ten inches on the falls.

Georgia Election.

Augusta, Ga., October 4. The returns from the election held in this State yesterday are thus far very meagre, and unreliable. Gov. Brown is re-elected by a heavy majority. In the eighth and ninth Congressional Districts the returns so far indicate the election of the Democratic candidate.

From New York.

New York, October 4.

Cornelius Wood, who, it was alleged, had pushed down Stricker at the instigation of the Mount Hall men, comes out in an affidavit, declaring that he was not in the interior of Tammany Hall, and the Regency, as represented by Cagney and Fowler, and that in knocking down Stricker, he struck the wrong man and intended to lay low Mr. Alvord, the Chairman of the regular and rival convention.

The steamship Tawania, from Southampton on the afternoon of the 17th ult., arrived here last night, bringing London files to the date of her sailing. They contain Admiral Hope's report of the battle between the British and Chinese, in which no allusion whatever is made to aid and comfort rendered the British commander by our forces on that occasion.

The Hungarian's Mails.

Boston, October 4. The mails by the steamer Hungarian of the 21st ult., via Quebec, reached here this morning, and will go forward to-night.

The fight between Tom Sayers and Bob Brett lasted only fifteen minutes. The latter's arm was injured.

Messrs. Clark & Sons report the cotton market slow of sale, with prices remaining as before.

Messrs. Richardson, Spence & Co. say that with more pressing on the market, prices are $\frac{1}{2}$ lower.

County Fair.

SPRINGTOWN, PENN., October 4. The twelfth annual fair of the Montgomery agricultural society opened this morning. The display of agricultural implements and machinery is very large. The collections of imported stock of Dr. Charles Hoffa, of Bucks County, is on the ground, and his Arabian stallion, covet of India and Calcutta sheep, are attracting large crowds of visitors. The annual address will be delivered on Friday by Sidney G. Fisher of Philadelphia.

Departure of Walker and his Men for Nicaragua.

New Orleans, October 4. General Walker and his men left the city last night, and sailed from Berwick's Bay this morning in a steamer chartered for the purpose without a clearance. The attempted clearance of the steamer Philadelphia for Aspinwall, was made to blind the authorities. Harry Morry commands the steamer.

Later from Mexico.

New Orleans, October 4. The Brownsville Flag says that the fever is fast disappearing from that place. Advice from Mexico state that General Doblado with three thousand men from Northern Mexico was marching south. General Wolf was recruiting his army, which had sustained heavy losses in the late victory over Doblado.

Central America and California Mails.

New York, October 4. It has been decided by the Postmaster General that all the foreign mails for Aspinwall, Panama, Central America, &c., are to be sent by the Vanderbilt steamer Northern Light, to leave on the 5th inst. from New York. The matter of the California mails is still unsettled.

Sentenced for Life.

MADISON, IND., October 4. Lenoekers, who killed Hall last March, in a street affray, was sentenced to-day to imprisonment for life.
